

Description First MM for Pa Rob.		Timestamp 15:10 - 16:45 + 10 min pause.
Session ID R03 01	Test ID	Tester JTL
Estimated time 90	Actual time 95	Time needed % complete
Charter As S.S. - subable food? ① Cap + isrob? ② Exercise with data.		
Result summary Spent time exploring capabilities in exercise with data. Clear probs in graphics. Rich UI is problematic.		

Capabilities + inabilities
+
Exercise realistically.

Started ~~from~~ BB TA.

Then started focused.

→ Looks similar to ~~use~~ exploration.

!

→ Concentrate on MM node

? → Return to other after 20 mins

Make a MM. node, depth, characteristics.

+ Profs.

1? Can't insert node?? New!

④ ~~Outgoing~~ center. No sib to root.
Open for curve over a sib -

? → Not both sides?

Empty OK.

Fold = →

Rb x 1 to re-edit, x2 for new.

* Pick up + drag - hard to see what has been picked up

Cuteasy select via gradient.

↳ Shows what's attached will be made

Loop is a positional drag handle
(vs ordering drag handle).

* Can drag off-screen...

Rearrange other items.

Text formatting applies to all of Node text.

Can select 71 with Shift.

* Click in empty is move, not magnifier.

Edit long node... long text

! Context vs toolbar vs menus vs keys.

Dynamic expand...

! User-defined zoom

Can put in way of seeing icons.

!! Odd overflows... @ 35? items long
Not always...

! Shows icons hierarchically - very complex with

Description		Timestamp
Session ID	Test ID	Tester
Estimated time	Actual time	Time needed % complete
Charter		
Result summary		

? Unfold children dict...

Can join nodes 1) v/o children
2) from diff + same levels

! Map history not that useful...

4 hrs on time for 20.

3 hrs pass.

Review

Review nodes

- ! Given "Help" file. Straight in other still on.
- ! Very few more time !! Any Extras?
- ! Ready for talking through cases.

!! "Op-Hypnotic" not gazed on
unavailable.

↖ Pref... can't find "Zoom" use def.

↳ set oth M-Seed.

! V-large + odd pressure...

Min ~ 12.3?

117 Re-does issues - I will ill help...

Disabling han?? 0:36 it move

! Zoom is also scrolls greatly down

Max zoom < 30k % ... poss han

2weis left...

CPU? Stuffed it.

Bin program. Then a CPU.

↓
can't

↓
Tava C. → Ed Procc
+
Flashback

Should ~~be~~ ended proceed!

Stop BBTA

↳ All back....

↓
oops!

Aftt Stoppin BBT, all back to
normal (ish...)

Window resize prob?

"File" mode

Shows file sys. Double click to open

→ Window expl.

→ Wide pane.

→ Combined open

! Very slow for browsing? No...

! Zoo bar take up side width

UT! Open — 50% L as link
— 50% R as branch
— Choose changes.

! Center for a new app

? Can we use branches??

Can't deny, can't resist...

Power - sweet... (thinks)

Disappearing menu bar — the window
16:25.

Review. _____

Next Steps ... -

16:32. Ed @ 16:40 + 8

16 minutes.

3 miss a browse after file type

9 miss a mindmap.

4~~5~~ miss group.

Browse - How to open a file?

↳ Check Laps

Not running -

Mindmap - useful to test.

① screenshots

! Stability - Model D says redraw?

Lost pic a 2nd drop

!! No zoom.

No more. Page.
