- ☐ 29/01/2008 12:00:32 5 mins checking help and having ideas. to 29/01/2008 12:16:19 - took 16 mins
  *- very over-long, investigating help and consequences*
  *inserted images are known to be problematic - existing zoom bug, referenced 'preliminary feature'*
  *BMP*
  *Some usability / UI as ever*
- ☐ 29/01/2008 12:17:45 10 minutes: Insert basic forms of valid types to 29/01/2008 12:50:31- took 30 mins!
  *Very slow - some problems due to lack fo zoom + large images, others to do with mm open/re-open issues*
  *Also BBTA issues - machine slowed again, CPU all BBTA, response returned when BBTS killed. May be because BBTA driver not fully installed.*
  *DPI problems*
  *More UI. Odd change in jpg behaviour - check movie to see if present in movie*
